REPAIRS ON GRAMMAR SCHOOL

Extensive repairs are being made on the elementary school. A roofing company was employed to repair the roof of the two wings of the elementary school that leaked so badly. The eight large doors in the front and back of the building have been removed and in place of the solid panels, glass panels have been substituted. Much light will be admitted to the building as a result of this. The cornice will be removed from the front of the building which has long been the home of pigeons and bats. We hope that through these repairs some of the disagreeable features of our elementary building may be improved.

G. R. Bennett, Supt.

Mrs. J. D. Belew is at home doing well after an operation in the Stamford Hospital last week.

Miss Mary Tindal came up last week from Fort Worth to visit a week with her parents, Mr. and Mrs. A. O. Tindal. She is attending a business school.

Mrs. Woodrow Dorris is here to visit her mother, Mrs. Berdie Wright for two weeks before joining her husband who is in the army flying school in Roswell, New Mexico.

How Much Rain?

August 1942 is well on its way and farmers are speculating on how much rainfall we might get.

One farmer was in the Herald office Tuesday with an old clipping showing a 12 year August rainfall from 1926 to include 1937—the average for the 12 years was 1.43 inches.

Some cotton is needing rain, maybe. Most of the cotton is developing fine.

Former Hamlin Woman Died In Quanah Sunday

Mrs. H. A. Dolman died Sunday afternoon at 1:00 o'clock in Quanah, Texas, following an illness of about six weeks. Services were held in the Quanah Baptist church Monday afternoon at 6:00 o'clock.

Mr. and Mrs. Dolman were pioneer citizens of Hamlin and made their home here for a number of years during which time Mr. Dolman was engaged in the drug business. About fifteen years ago they moved to Quanah where they have since made their home.

Surviving are the husband and one son, Harry Dolman Jr., a teacher in Oklahoma A. & M. College.

During her residence in Hamlin Mrs. Dolman was active in church and club work. For many years she was a teacher in the Sunday School of the Hamlin Baptist church and gave her service freely to the Woman's Missionary Society of her church. She was a past president of the Hamlin Woman's Literary club and was always interested in every thing that was for the upbuilding of her home and community.

To The Voters of Precinct No. 1

I want to thank each and every voter of Precinct 1 for the nice vote you gave me in the July Primary, and I do not hold any ill feeling toward anyone who opposed me, since you were only exercising the rights our country is fighting for today.

Sincerely,
S. C. FERGUSON

Rev. N. A. McMillan, pastor of the Assembly of God church, was called to Fort Worth Tuesday of this week to be with a son, Ray, who was very sick.

COURTHOUSE MAY OPEN ON SATURDAY AFTERNOONS

(FROM JONES COUNTY OBSERVER)

The Commissioners' Court has gone on record as favoring the keeping open of all courthouse offices on Saturday afternoons.

Sentiment has been 100 per cent in favor of keeping open our courthouse offices on Saturday afternoon.

Now, with our government asking us to conserve rubber and gasoline for the war effort, the only patriotic thing to do is to keep not only our county courthouse offices open, but also our other places of business where the farmer, merchant and citizen would be accommodated.

One business man in Anson has reported to us that his firm cashed over \$400.00 worth of checks after the bank closed Saturday at noon. Most of his time, this business man said, was taken up with banking business—cashing checks. He expressed the opinion that he much preferred the bank to remain open on Saturday afternoon and close all or most of the day Monday. This business man stated also that he did not like to assume the responsibility for \$400.00 worth of checks, as he had no way of checking to see whether or not a man's check was good, as the bank has from its own records.

If the courthouse offices, the bank, the post office and the lumber yards will remain open on Saturday afternoons, we feel confident the business men of Anson will gain an additional business increase from \$50,000.00 to possibly \$150,000.00 annually, to say nothing of thus co-operating with our government in the war effort to conserve rubber and gasoline.

FREEDOM OF THE PRESS

The above from Editor Miller, frankly speaking in behalf of his town, is what might be called a sample of "THE FREEDOM OF THE PRESS". Generally the freedom of the press is for the freedom of the people, regardless of the late condemnation of Texas Newspapers.

In most cases frank statements from the small town newspaper exercising its right to be free, costs it money or feelings. If the paper says something that fits "your" selfish desires it is praised; if it gets on your toes, then it is damned.

THIS part of the United States is still a SIX-DAY working week.

Public affairs belong to the public six days of the week.

Private matters belong to the individual and if the individual desires to cut his own business throat, it is his privilege. The serious side of all the "cutting" is that after the throat is cut it is too late to repair the damage and the public must also suffer.

About two years from now Jones County people may be asking the officer if he wants the office for a six-day week or a four or five day week. The same is true of the post office. These are public matters.

Revival

Our revival will start at the Assembly of God church on South Central Avenue this Sunday.

This is our new location, in our larger building.

Miss Bettie Fay Hensley will do the preaching, assisted by her mother.

Everybody invited.

METHODIST CHURCH

JAMES E. HARRELL, Pastor

Sunday School at 9:45, A. M. Morning Worship service at 10:55. Juniors, Intermediates and Young People meet at 8 o'clock.

Evening service at 9 o'clock.

Mid-week prayer service, Wednesday evening at 8:45.

The pastor's sermon message Sunday morning is to be: "Love and Self Surrender". Sunday night his message will deal with the "Signs of The Times". You'll be interested in these very plain, sensible, spiritual messages dealing with vital issues of our day. "Come and see".

While our boys are fighting to defend Democracy and Christianity, how faithful and true are you to these things for which they are giving their life's blood? When they come back, will they be proud of you because you were true and faithful to the church and to democratic principles and ideals? If not, who is to blame?

If you go to church Sunday, you can work better Monday. Try it and you'll be convinced. We'll look for you next Sunday.

We are always delighted and happy to have visitors in all our services.

METHODIST SUNDAY SCHOOL TRACK TOURNAMENT

Following our revival, which was a wonderful success, during which we had 25 reclaimations, conversions, and additions to the church, we are dedicating the month of August to an attendance tournament. In this track tournament, the men and boys are running against the women and girls. The race is divided into three stretches of two weeks, or Sundays each and the final of one Sunday. The men and boys are known as GROMORES and the women and girls as HOLDFASTS.

The race is based on attendance, punctuality, new members and offering. The trainer, song leader, or booster will be: Mr. Brooks for the men and boys, and Mrs. Farrow for the women and girls. The Sunday School superintendent, Dr. Gould, is the coach, or head of all tournament affairs.

Our object is to build the average attendance to 200 in our Sunday School and to create a better interest in punctuality and build up a finer and better Sunday School spirit.

The first Sunday was about a tie between the two sides. Every Methodist and Methodist inclined person is urged to attend next Sunday. Watch for next week's report in the Herald. Help us make this a real, enthusiastic, forward looking, spiritual church school track tournament. If you are not in somebody's Sunday School, we invite you to ours.

Mt. Zion Church of The Nazarene

We wish to announce that our revival is progressing nicely. The Heasley-Brannon Evangelistic Trio has been giving us the best of singing and preaching in the old fashioned way. Souls are finding God and the church is being built up spiritually. The meeting will close Sunday night so you are invited to attend and help us make these last few services the best in the history of the church.

The Trio will render a musical program for us Saturday night at 8:45. Everyone is invited to attend Sunday Bible School, 10:45 A. M. Come and bring some one with you. In these dark days we need to get closer to the Lord and the church.

Jester To Open His Campaign Fri. Night

Corsicana, Texas, Aug. 4.—Opening his runoff battle for the State Railroad Commission, Beauford Jester will discuss the importance of his campaign in a radio speech to a statewide audience from his home town, Corsicana, at 9:30 P. M., Friday, August 7th. The talk will be carried over a fifteen station network.

"Texas oil and transportation are vitally important to our war effort," Mr. Jester said. "Most of the oil that will fly our planes, power our mechanized divisions, and fuel the ships of America and her Allies will come from Texas. There must be no bottlenecks in Texas' oil production and transportation facilities."

"The people of Texas need a war veteran and a fully qualified Railroad Commissioner who will see to it that every industry regulated by the commission can and does function at its maximum in our war effort," Mr. Jester declared.

A native of Corsicana, Jester is a graduate of Texas University and served from 1932 to 1935 as chairman of the university's board of regents. He interrupted his law studies to go overseas in 1917 as an infantry captain in the 90th division. He saw action in the St. Mihiel and Meuse-Argonne offensives. Returning to the law after the Armistice, he completed his studies and has practiced in Corsicana ever since. He has taught a Sunday school class in his Methodist church since 1924, and since 1935 has been a member of the State Advisory Board of the National Youth Administration.

THE WAR

As We See It,

Folks, some time ago we promised to give a weekly sum-up of how we see the war to date.

This past Monday, things looked so blue we could not find a word to say. Tuesday was the same, except worse. Then we began to hear of the terrible situation developing in India, where four hundred million poor benighted souls squirm in ignorance, idolatry, fanaticism and misery. A point on this earth that bids well to become the scene of the greatest blood shed in all history. India, the land of extremes, where the poorest get lower and the rich get richer. Where 536 different rulers hold on to areas of power; where two great religions want to rush at each other's throats. That is the fertile ground which the Germans and the Japs hope to meet in and divide.

To know the real situation in India, gives one plenty of ground to understand that the only factor to keep from having a disaster to the human race is the British Empire. It looks like the plan of the Japs and the Germans is being well carried out.

Now what shall we say?

There are three questions that no man can answer: (a) When will the Judgment Day come (b) When will the war end and (c) Who will be nominated senator from Texas.

But what about the battle fronts? We all know too well that Hitler's hordes are pressing hard against the very heart-center of Russia. The outlook gets darker for Russia. We hear every day, "Do you believe the Russians are killing as many Germans as they report?" Why doubt

that? Aren't the Germans coming in on the Russians in solid gangs? What would Americans do to such a bunch of invaders of our homes? Don't you think we would mow them down, thousands of them in every manner possible? Nobody can really know how many are killed, wounded and lost.

Somebody says, "How can they bury so many dead?" In war, who cares about burying a man? A dead man is just a bunch of matter so that a war machine passes over it like a stick. It is the living who count.

Every person who has a speck of interest in humanity fears that the Russians will "crack" and in a short time the German armies will be going anywhere and everywhere at will. Don't you feel that way? Russia is a big country, rugged, old-fashioned pioneer fighters, who see their homes, their women, and their children destroyed by the Huns, and as long as they can stand up there will be a fight. Yes, and all of us had better say, "God Bless the Russians", for this very week, Russia is fighting a battle that might serve to keep the Germans and Japs out of our country some day.

What are you doing about the war? If you let even yourself believe that we will be invaded and overcome, you are playing into Hitler's hands. He wants as many Americans as possible to become discontented, disgruntled, and confused so he can clean up on us when he gets here.

What are the English and Americans doing, you ask?

Again don't doubt. Our country along with England is doing so much no human can imagine how big. We agree that it looks like the move up to a front is slow and that the delay is dangerous. Every day war is dangerous, but let all of us remember three or four million American boys, well equipped makes a force that no Hitler or Jap army can stand up against. Remember we have not been in war but 8 months this Friday, August 7. Let's quit complaining at our men in responsible positions. We've got the best government in all the world, and to doubt and kick and bungle while our men are at the front is not backing them up as we should. The men and women back home are too honest, too patriotic and too capable to let our soldiers down. America and

her allied nations will whip the very stuffing out of the Germans and Japs if it takes ten or twenty years, or even longer to do it.

—T & T—

To Those Who Become Soldiers—

You have come here from ranches and towns of Texas to become soldiers in the Army of the United States. The United States did not plan this war. We know now that oceans cannot protect us. We have assumed that other countries are decent, but facts show that an Axis victory would mean slavery for us just as for Poland and others.

When you enlisted or reported to the Selective Service Board for transportation, the band was not playing. Your folks, neighbors, and friends were serious. You were leaving to protect them, to protect home and fireside. When you are issued a uniform and walk down the street, even strangers will feel that you are protecting their homes. A part of the oath every man is asked to take as he becomes a soldier is:

"I will bear true faith and allegiance to the United States of America; that I will serve them honestly and faithfully against all their enemies whomsoever."

Only those who are physically and mentally fit are allowed to wear the uniform of a soldier. You may be assured that every effort will be made to give you good food and medical care that you may return to your home in as good or better physical condition as you are now. It has always been that the strong protect the women, the children, and the aged. This is total war and others will follow to help you; even at this time, women are joining the ranks as soldiers. Freedom and not conquest is the issue. The folks back home will be making sacrifices while you are in the service.

A few suggestions:
Investigate war risk insurance. You will find complete details on the Bulletin Board.

You will not need to take any extra clothing to the reception center, nor will you need a car.

At the reception center, you will be classified and as nearly as possible, you will be given duty you can do best. Your choice of Army Service will be asked. Read our Bulletin Board, which gives a description of the Infantry, Cavalry, Air Corps, etc., so you will have a choice.

At camp, you will find that officers will be strangers to you and will give a square deal to all. It is the same in the Army as in civil life—those who are dependable and work hard will not have any trouble. Best of luck and happiness.

U. S. Army Induction Station (NOTE) Folks go back and read this again. It is the first pep talk your boys gets after going into service. It is fine from a hundred points of view.

It is designed to awaken in every American boy that something that was born into his being, Love, Freedom, Responsibility, and these feelings make of our young men the best soldiers in all the world. They know what it is all about and they know full well when they do a good job.

WHAT ABOUT THE HOME FRONT? Back home lies the greatest front. How careful every citizen should be that he builds not a sentiment to destroy the soldier's morale. Our whole system of government is built on CONFIDENCE. We do not doubt our soldiers; we should not doubt the leadership of our government; and we must not doubt the outcome of our four or five million soldiers. "Them's our sentiments".

Cadet Warren Nobles who has just completed his second stretch of aviation training in Randolph Field, came in late Saturday night to spend a day with his mother, Mrs. Vera Nobles. Cadet Nobles now goes into Kelly Field for advanced flying. Folks, better keep an eye on this kid, some day he will "bust" a hole in the axis wheel... this is a typical Hamlin flyer who is not in the fight for nothing.

Ensign Richard Feagan And Houston Girl Wed In New York

The marriage of Hazel Gregory of Houston and Mexia and Ensign Richard Wynne Feagan, son of Mr. and Mrs. E. C. Feagan of Hamlin, was solemnized Saturday afternoon in Ithaca, New York.

The wedding service was read by a Presbyterian minister in the study of his home at 3:30.

The bride wore an all-white costume, only color accent being touches of gold on her shoes and bag. Her suit was fashioned of silk linen and her flowers were a corsage of Tallis-mum rosebuds.

Ensign and Mrs. Oliver Wood of San Angelo, bridal couple, served as attendants to the couple.

Mrs. Feagan is a daughter of H. O. Gregory of Houston and a grand daughter of Mrs. C. E. Northcutt of Mexia. Flying from Texas to New York, she was met at Syracuse and accompanied to Ithaca by Mrs. Wood who is the former Mary Louise Wood of Big Spring.

Ensign and Mrs. Feagan and Ensign and Mrs. Wood, who were all former students in the University of Texas, have leased a furnished house together in Ithaca. Classmates for two years, Ensign Feagan and Ensign Wood were graduated in the same class from the university last year.

He enlisted in the naval reserve while he was a student in the university and one week following his graduation was called to report at Charleston, S. ...and ELECTRIC POWER, too, has grown
to Meet the Wartime Needs of 1942!

Plenty of Electricity on Hand

WASHINGTON, July 22. (AP)—J. A. Krug, chief of the power branch of the War Production Board, expressed confidence today that war production would not be crippled by a shortage of electric power.

"We have sufficient electric power," he said, "to meet all the requirements of war production and for essential civilian needs, if used wisely—as far as we can see ahead."

WAR DEPARTMENT figures show that today's average soldier is nearly an inch taller and ten pounds heavier than in 1917—a great gain for one generation and a real tribute to the men of science and the men of industry who helped build Bill's husky frame.

We're glad electric service had a hand in it.

Food experts discovered new vitamins and better diets for Bill; doctors developed new serums, drugs and healing techniques; and electric research worked out new and better ways to refrigerate... preserve... his food so it would be fresher, safer, cheaper,

Even before Bill was born, electric servants freed his mother of much household drudgery—so that she and her children might be healthier and happier.

At the same time that the electric industry was helping Bill to develop into a stronger, healthier man than his dad, it also was expanding to provide the power vitally needed in 1942.

In back of Bill today is plenty of electricity for building tanks and planes, guns and ships... power to run the factories making weapons with which Bill will win the war!

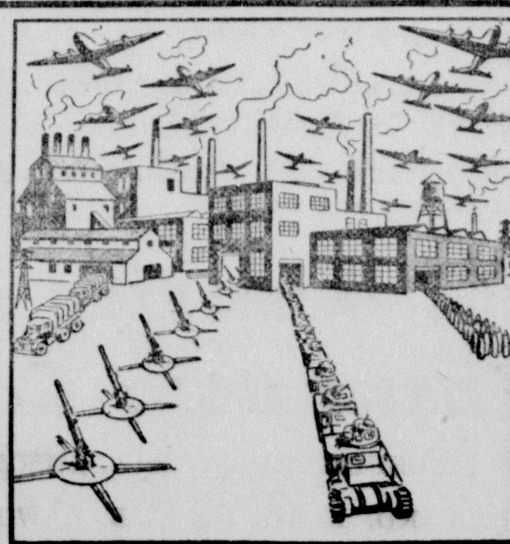

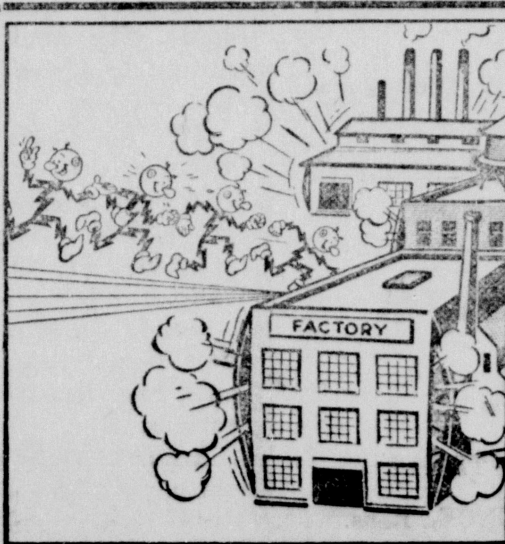

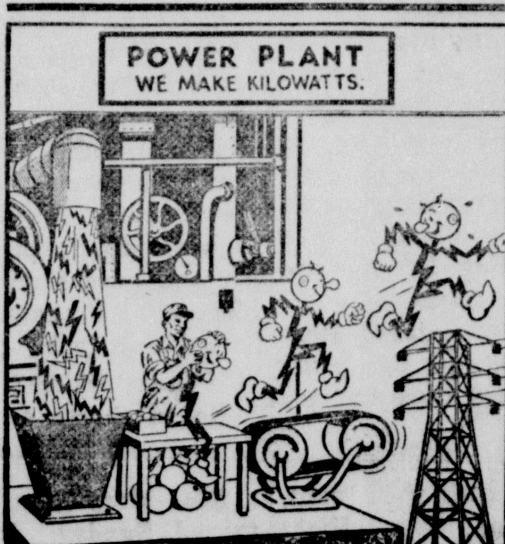

Actually, this country now has five times more electric power than we had in 1917.

And over 90 per cent of ALL the nation's commercially generated electricity is being provided by companies like this institution... companies that developed the American way, free to work and create things that men and women want and need for everybody's benefit.

This company "grew up" that way—organized by a few men with foresight to see West Texas' great need for ample, cheap electric power. Today it represents the savings of thousands of small stockholders, operating under good business management, regulated by the government, paying taxes, and providing excellent service at low cost.

A large crowd attended the first service of the Baptist revival at the church Sunday morning. Bowen Pope brought a fine message which was enjoyed by all and Mr. Pope learned one thing about McCauley people. If he ever gets hungry he will always find a welcome down at McCauley and if he could have accepted all the invitations that he had for dinner, he would have consumed enough food to last him for the duration.

Mrs. Jimmy Fancher has recently returned from a visit with her navy son and wife in Baltimore. While away Mrs. Fancher visited Chicago and other points of interest. A lot of funny things can happen at election time. One of our neighbor ladies was doing so much scratching at the polls that lo, and behold, she marked out the candidate for governor that she planned to vote for and voted for the candidate that she was so opposed to. And after she had voted and went back home it dawned on her that she had voted wrong. Well any way everything is ok, as the candidate that she voted for will go back to

selling crystals.

The President's goal of 60,000 air planes, 45,000 of them combat planes for last year, and 125,000 for 1942, still stands as our minimum. This astounding goal will require hundreds of thousands of workers in our industry. It has been estimated that by the end of 1943, there will be a million and a half persons employed in the manufacture of air planes and air plane parts.

This war is a gigantic war of men and machines, and speed is of vital importance, and our entire war efforts are being rushed to beat the enemy to the punch. Sometimes we all get too anxious to start a second front though it looks as if Russia's victory depends on whether or not the allied nations open a second front. However, we must remember that it takes ships to transport men and machines to the thousands of distant points and our ships, so we are told, are being sunk faster than we build them.

You and I know that our President is confident and our nation is confident that free American workers can out produce and out fight the oppressed victims of dictatorships. We can not and we must not fail to do our part even though small as it may seem, our help is needed by our government.

Now you take this word inflation. We are told that if inflationary prices come, it means that shoes now purchased by the working man for a half a day's wages will cost him his wages for a day and a half and all other items that are necessary in proportion. Inflation means what post-war Germany experienced, when one could not attach to a single envelope enough stamps to pay postage on the letter contained in it. Folks we had better not sit and twiddle our thumbs and hope for the best. We had better do our part now by buying bonds and stamps and keep on buying until it hurts. Our boys on the front are giving their all, and surely we will give our all for the sake of freedom.
